

who said, "What can I do to make my community a better place?" So she works at the Children's Hospital here. She cares about children. She's lending her love to help heal the broken heart of the sick. I call to you here in Miami, as I do around America, and say, "If you want to serve your Nation, feed the hungry, mentor children, provide shelter for the homeless, reach out to the lonely, and together, we can change America one heart, one conscience, one soul at a time." No, the strength of this country is the great people of America, and it is my high honor to be the President of such a fantastic country.

Thanks for coming. May God bless. Thank you all very much.

NOTE: The President spoke at 5:31 p.m. at the Hyatt Regency Hotel. In his remarks, he referred to Gov. Jeb Bush of Florida; Al Hoffman, finance chairman, Republican National Committee; Al Cardenas, former chair, Republican Party of Florida; Representatives Lincoln Diaz-Balart and Ileana Ros-Lehtinen of Florida; former President Saddam Hussein of Iraq; and President Fidel Castro of Cuba. Proclamation 7775—Jewish Heritage Week, 2004

April 23, 2004

By the President of the United States of America

A Proclamation

Jewish Heritage Week commemorates the rich history of the Jewish people and the many contributions Jewish Americans have made to our Nation. This year marks the 350th anniversary of the first permanent Jewish settlement in North America, in what is known today as New York. We honor the courage and perseverance of these Jewish immigrants and their descendants, and we celebrate their steadfast dedication to the ideals that make America strong.

Through their stories of tragedy and survival, the Jewish people demonstrate their unyielding faith and share with us the important truth that even in the face of terrible tragedy, hope endures. Many Jews came to America in search of a land of freedom and opportunity, and we must work to preserve

their stories for future generations. The lessons of these stories are timeless and help guide us through the challenges ahead.

Over the past three and a half centuries, Jewish Americans have helped shape the history and culture of our Nation. As scientists, physicians, social workers, educators, artists, businessmen, and in many other professions, Jewish citizens have contributed to the strength of our country. Their commitment to religious freedom, respect for diversity, and belief in democracy have enriched our society and helped make America a better place for all. During this historic time, we are particularly grateful for the many Jewish Americans who serve in our military. Their efforts help advance the cause of freedom and provide hope for people around the world.

As we observe Jewish Heritage Week, we remember the proud legacy and determination of the Jewish people and their strong dedication to faith, family, and service.

Now, Therefore, I, George W. Bush, President of the United States of America, by virtue of the authority vested in me by the Constitution and laws of the United States, do hereby proclaim April 25 through May 2, 2004, as Jewish Heritage Week. I call upon all Americans to observe this week with appropriate programs and activities that highlight and honor the contributions Jewish Americans have made to our Nation.

In Witness Whereof, I have hereunto set my hand this twenty-third day of April, in the year of our Lord two thousand four, and of the Independence of the United States of America the two hundred and twenty-eighth.

George W. Bush

[Filed with the Office of the Federal Register, 11:27 a.m., April 26, 2004]

NOTE: This proclamation was released by the Office of the Press Secretary on April 24, and it was published in the *Federal Register* on April 27.

The President's Radio Address

April 24, 2004

Good morning. This week I celebrated Earth Day by traveling to Maine and Florida to visit some of this Nation's vital wetlands.

From the Gulf of Maine to the Gulf of Mexico, Americans are blessed to live amid many incredible wonders of nature.

We no longer take those wonders for granted. We understand our responsibilities to the natural world to conserve and make better what we have been given. Wetlands are among our most important natural resources. They provide a habitat for wildlife, trap pollution, reduce the impact of floods, and provide recreational opportunities.

For many years, our Nation has sought to slow the loss of our wetlands. We've made tremendous progress. And on Earth Day, I was proud to announce a new goal: Instead of just limiting our losses, we will expand the wetlands of America.

To accomplish this objective, my administration will work to restore, improve, and protect at least 3 million acres of wetlands over the next 5 years. This new wetlands policy reflects an enduring national commitment, carried forward by both parties, to protecting the environment.

We're taking action to ensure cleaner air. Since Congress passed the Clean Air Act of 1970, major air pollutants have been reduced by nearly 50 percent. My administration is building on that progress by implementing smarter ways to raise standards and improve air quality.

The clean air interstate rule, based on the Clear Skies legislation I sent to Congress last year, will reduce the major causes of ozone and fine particles by 70 percent. This rule employs a market-based approach called "cap and trade" to reduce air pollution that crosses State borders.

We're also completing an important new rule to remove sulfur from diesel fuels. Just as regulations to remove lead from gasoline have helped cut pollution in the 1970s, our new diesel rule will reduce harmful emissions from generators, tractors, and other diesel vehicles.

Finally, we are regulating mercury emissions from powerplants for the first time ever. Under our new proposal, mercury emissions will be cut by approximately 70 percent.

All these rules are based on sound science and good economics, and they will help every American breathe cleaner air.

We also have a responsibility to be good stewards of the land. Two years ago, I signed legislation to clean up more of the abandoned and polluted industrial sites known as brownfields. Between 2001 and 2003, we restored over 1,000 brownfields to usable condition, more than were restored in the previous 7 years. Our efforts have opened usable land for small businesses and residents in hundreds of communities across the country and created more than 25,000 jobs in cleanup and redevelopment.

Another critical environmental priority is the health of our Nation's forests. In recent years, millions of acres of forests, rangeland, and communities have been destroyed by wildfires. So last December, I signed the Healthy Forest Restoration Act to reduce the risk of fire, save lives and property, and improve the health of our forests. The law opens millions of acres of forest land to vital thinning projects. And by expediting the environmental review process and directing courts to consider long-term threats to forest health, the law allows us to protect more of our Nation's precious forests.

In the past three decades, America has made great strides in honoring the ideal of conservation and living by high standards of stewardship. My administration's environmental efforts uphold that legacy. In the past 4 years, America's air, land, and water have all gotten cleaner. Our new proposals build on that progress and help us advance toward our national goal of a cleaner, safer, healthier environment.

Thank you for listening.

NOTE: The address was recorded at 4:35 p.m. on April 22 in the Cabinet Room at the White House for broadcast at 10:06 a.m. on April 24. The transcript was made available by the Office of the Press Secretary on April 23 but was embargoed for release until the broadcast. The Office of the Press Secretary also released a Spanish language transcript of this address.

Message on the Observance of Armenian Remembrance Day, 2004 *April 24, 2004*

On this day, we pause in remembrance of one of the most horrible tragedies of the 20th
